

Entrahome

With the addition of the Cifero Code keyboard

Entrahome is an app that is installed on a smartphone. This app functions as a platform to manage the entire access.

The Entrahome app allows the gate to be activated, managed and controlled remotely.

The app allows up to 100 users. With the addition of the Cifero code keyboard, each of these users can be personalized by, for example, having their own code that is only active during certain times.

Features

Easy to install

The app's user-friendly layout walks you through the installation process with ease. After installation, you immediately have an overview of all added products and can control them by touching the screen.

Secure management of access

All data is stored on the administrator's smartphone(s) and can be managed via the smartphone(s). With the Entrahome app, you can:

- Add up to 100 users* (including 4 administrators)
- A logged overview of all users of the gate
- Open access only within certain hours
- Grant access to the entire property or just a section of it

**Depending on the Entrahome subscription*

Cifero code keyboard

With the addition of the Cifero code keyboard to the Entrahome system, allows you to full personalize every user. Each user can have their own unique code. That's handy for:

- Contractors who visit when you're not home
- Cleaning services
- Deliverers
- Blocking access to certain areas
- ...
